ABOUT

I am a final-year B.Tech Artificial Intelligence and Data Science student at Adithya Institute of Technology with a passion for software development and full-stack web development. I enjoy learning new technologies, solving real-world problems, and continuously improving my technical and leadership skills. I am seeking an opportunity to contribute to an organization while growing as a software engineer.

EDUCATION

Kamarajar Matric higher Secondary School,Salem,Tamil Nadu

Year:2023

HSLC -79%

Adithya Institute of Technology, Coimbatore, Tamil Nadu

B.Tech. Artificial Intelligence and Data Science, Major: Data Science -CGPA:8.0

Expected Graduation: September 2027

EXPERIENCE

Full-Stack Development

May 2025 – June 2025

Accent Techno

- Assisted in developing and maintaining web application components using HTML, CSS, and Django.
- Collaborated with team members to analyze project requirements and implement practical solutions.
- Supported daily development tasks, improving team productivity and workflow efficiency.
- Managed multiple assignments while consistently meeting project deadlines.
- Strengthened teamwork, communication, and software development practices in a professional environment.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, JavaScript, HTML5, CSS3
- **Frontend Technologies:** React.js, Next.js, Tailwind CSS, Bootstrap
- **Backend Technologies:** Node.js, Express.js, Flask, Django
- **Databases:** MongoDB, MySQL, Firebase (Firestore)
- **Tools & Platforms:** Git, GitHub, VS Code, Vercel, Postman
- **Concepts:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), REST APIs, Full-Stack Web Development

PROJECTS

1. Construction Management System

Tech Stack: Next.js, React, Node.js, Express.js, MongoDB, Firebase, Tailwind CSS

- Developed a full-stack construction management platform to manage projects, attendance, documents, tasks, and site progress.
- Implemented secure user authentication, role-based access, and real-time data management.
- Designed a responsive dashboard with an intuitive user interface for efficient project monitoring.
- Deployed the application on Vercel for online accessibility.

What I Learned:

- Full-stack application development using the MERN ecosystem and Next.js.
- Authentication, database design, API integration, and cloud deployment.
- Building scalable, responsive, and user-friendly web applications.
- Link: [Construction Management](#)

2. Tuition ERP System

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Built a Tuition ERP system to manage students, teachers, attendance, fees, and academic records.
- Developed modules for student registration, fee tracking, attendance management, and report generation.
- Created a responsive dashboard to simplify administrative tasks and improve data management.
- Deployed the application on Vercel.
- Link : [Tuition Erp](#)

What I Learned:

- Designing CRUD-based web applications and REST APIs.
- Database modeling and efficient data management with MongoDB.
- Frontend-backend integration, debugging, and deployment of production-ready applications.

CERTIFICATIONS

Python for Data Science
HTML & CSS Bootcamp
SQL Bootcamp Canva
for Beginners

ACHIEVEMENTS

Successfully completed a Full-Stack Development Internship at Accent Techno. - Recognized for effective teamwork, problem-solving, and timely project completion during internship.
